# REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The instant claims were deemed allowable after reading applicants arguments, re-considering the references used in the previous rejections in light of those arguments and doing another search. Applicants argue that their specification shows that there were unexpected results using polyethylene glycol within the molecular weight limits of 12,000 - 30,000. The examiner has been unable to find anything in the prior art that would anticipate this or make this obvious. Tsuji, et al. (V) is cited as of interest.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Patterson, Jr., PhD, whose telephone number is 571-272-0936. The examiner can normally be reached on Monday - Friday from 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ponnathapura Achutamurthy, can be reached on 571-272-0928. The fax phone number for the organization where this application or proceeding is assigned is 703-308-4242.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
